

Safety instructions

Important! Before commencing installation work disconnect the main cable from the power supply - remove fuse or turn switch to "OFF"!

1. Installation should be carried out in accordance with the local safety regulations.
2. In order to prevent damage, please check walls for cables before drilling holes.
3. Please ensure that all electrical connections (even preassembled lamps) are screwed tightly or are fully inserted as good contact is essential for a long life-span at high currents. Please check for tight connections after changing or adjusting lamps. Screwed connections must be tightened after 20 minutes.
4. Please do not place objects on your system (e.g. for decorative purposes) if they were not delivered with the system.
5. The lamps get very hot when in use. Please allow lamps to cool down before touching.
6. Do not change lamps or spots when switched on.
7. System should not be enlarged with additional lamps.
8. We reserve the right to technical alterations.

Please keep these instructions.

Europe: Integrated LED - Voltage: 230 VAC

North America: Integrated LED - Voltage: 120 VAC

Blossi In-Set Table

Assembly Instructions

NUURA

NUURA

Prepare a hole at the table top.
The hole must be \varnothing :14mm

Lead the threaded pipe through
the table top.

Make sure to fasten the nut.

Connect the cable to the power
cable.

Unscrew the knob.

Carefully remove the top metal
plate.

Carefully place the glass shade
so it rests on the bottom metal
plate.

Carefully place the metal plate
on top of the glass shade.

Gently screw the knob back on
to the lamp to fixate the glass
shade.
